

## GMO CERTIFICATE

---

Customer: PRO GENEVA

Product: CLEAN TEA HAND SANITIZER SOLUTION  
1494953

---

We certify that, to the best of our knowledge, the above product does not contain any viable genetically modified or non-genetically modified organism.

Although science has demonstrated it would be possible to produce substances that could be used as fragrance ingredients via genetic engineering, the use of GMOs for the production of odoriferous materials remains insignificant.

We are not currently aware of any fragrance ingredient produced by this technology. The processes involved in fragrance ingredient manufacture would not reasonably be anticipated to result in DNA contamination.

Additionally, labelling is only required for food products produced using GMOs.

### Regulatory Affairs & Product Safety, Fragrance & Beauty

This certificate is generated by calculation based on data for ingredients.

The data in this document has been prepared by Givaudan in accordance with Givaudan's internal protocols and procedures in order to evaluate characteristics and/or performance. Givaudan has in place a program of review and analysis for all relevant fragrance and oral care flavor ingredients. Detection limit for calculation is ten ppm. The information contained herein is, to the best of Givaudan's knowledge, true and accurate at the time it is given. It is provided to Customer for its information and internal use only. Givaudan is not liable for any damages that may result from the misuse of the data. It is Customer's responsibility to perform its own evaluations on the material evaluated herein, including with respect to end-use applications. Any Customer product, marketing or other claims are Customer's sole responsibility.
