

DECLARATION ABOUT THE REACH REGULATION (EC) No. 1907/2006

Customer: PRO GENEVA

Product: CLEAN TEA HAND SANITIZER SOLUTION
1494953

We, Givaudan, declare, to the best of our knowledge that we are in compliance with our obligations according to the REACH Regulation (EC) No. 1907/2006 and its modifications and updates for the substances contained in the fragrance compound(s)/ingredient(s) listed above.

Substances which required registration by the end of May 2018 were completed successfully by Givaudan in the EU and/or their suppliers (i.e. where Givaudan are a downstream user as defined by the REACH Regulation).

Products supplied to the above named customer in the EU/EEA are considered to be covered by Givaudan's completed registration and the above named customer is therefore regarded as a downstream user. Additionally, to the best of our knowledge, the intended uses (as notified by our customers), will be included by Givaudan as part of the registration process in line with the IFRA Guidance REACH Exposure Scenarios for Fragrance Substances_20121211 guidance document which can be found at the following web address: www.ifraorg.org/en-us/guidelines.

Givaudan has specific arrangements for compliance to the REACH requirements for the substances contained in the Fragrance Compounds/Ingredients listed above supplied outside the EU/EEA which will be exported back into the EU/EEA by the above named customer. Under these circumstances, substances contained in the Fragrance Compounds/Ingredients listed above are not covered by Givaudan other than when a specific OR (Only Representative) agreement is in place.

Any substances out of scope e.g. exempted substances or substances below the threshold for registration under REACH (<1tpa) are allowed to be used in products without registration in the EU.

Regulatory Affairs & Product Safety, Fragrance & Beauty

This certificate is generated by calculation based on data for ingredients.

The data in this document has been prepared by Givaudan in accordance with Givaudan's internal protocols and procedures in order to evaluate characteristics and/or performance. Givaudan has in place a program of review and analysis for all relevant fragrance and oral care flavor ingredients. Detection limit for calculation is ten ppm. The information contained herein is, to the best of Givaudan's knowledge, true and accurate at the time it is given. It is provided to Customer for its information and internal use only. Givaudan is not liable for any damages that may result from the misuse of the data. It is Customer's responsibility to perform its own evaluations on the material evaluated herein, including with respect to end-use applications. Any Customer product, marketing or other claims are Customer's sole responsibility.
